FOR SURGEONS

Rock-steady vision: firm set-and-hold camera positioning for crisp, shake-free images

Surgeon at the patient: maintain full tactile control-no remote console

FOR HOSPITALS

Works with minimal assistance: reduces the need for extra staff during procedures

Budget-friendly: enable robotic-level stability without large-robot costs

Quick to learn: intuitive setup; minutes to confidence for surgeons and nurses

FOR THE FUTURE OF SURGERY

Built for safety: robust locks, smooth motion limits, and sterile draping
